

## ENGINEER AND COMMISSIONER AGAIN OCCUPY THE FLOOR

Commissioner Declines To Ratify Plans Altered By Engineer—Ald. Calhoun Will Ask For Mr. Hargreaves' Resignation

There was another engineer and commissioner "scrap" at the council last night and this one threatens to end fatally for one or the other as the tension is great and neither party apparently has any intention of backing away.

The question at issue this time is the sewer plans. The city engineer takes the ground, in a report which he submitted to the council last night, that if he is going to be responsible to the city he must have absolute say as to the plans of the work under his department.

Commissioner Hargreaves apparently takes the ground that he is the supreme power in the public works department, and has a right to accept or reject any plans.

The sewer plans which were prepared by Mr. Hargreaves, while engineer and adopted by the city council some months ago and were then turned over to Engineer Kesey when he came onto the job are back to about where they started from two months ago.

Engineer Kesey changed the plans in a few minor particulars, and Commissioner Hargreaves refused to accept the changes. The matter appears to have been fought back and forth through the city offices for the past ten days or two weeks, and last night was brought into the council when Ald. Calhoun requested the privilege to ask a question. Being granted, he said that he had heard it reported that the commissioner of public works had the sewer plans tied up. He asked the engineer if that was the case.

Alderman Manson asked who Alderman Calhoun meant by the commissioner of public works.

Alderman Calhoun said that he referred to Mr. Hargreaves.

Alderman Griesbach said that there was a report coming which covered the point.

The report of the bylaw committee which was appointed at the last regular meeting, and of which Alderman Griesbach was chairman, reported that

## CALGARY STRIKES ARE ENDED

Masons and Builders Compromise and Leather Workers Return to Work

Calgary, June 12.—By the good work of Mackenzie King, Deputy Minister of Labor, the two strikes troubling Calgary for several weeks have been settled. Stone masons and brick layers were on strike, the former asking for an increase from 55c an hour to 60 cents, and the latter from 55c to 65c. A compromise was arrived at. The stone masons get what they ask for and brick layers get 62-1/2 cents. An agreement was signed for a three years arrangement for a conciliation board in case of difficulty. The leatherworkers agreed to go back to the Great West Co. on the promise of R. J. Hutchings, manager, that increases should be given in certain lines.

SIX KILLED IN RIOT.  
Warsaw, June 11.—Six persons were killed in the rioting here on Saturday. The disturbances are reported to have been organized to avenge the workman Marzewski, who was executed in the citadel on Saturday morning for attempting to kill a police officer.

STRUCK BY BOLT.  
New York, June 11.—Four Italians were arrested here today and were remanded by the coroner until the story told by one of them, which tends to offer a solution of the mysterious murder of Mrs. Alice Kinnan, in the Bronx, Friday night, can be more thoroughly investigated. Mrs. Kinnan was called to the door of her home for mother, Mrs. Stanton, with whom she had been living since a separation had been granted her from her husband. On the veranda she was struck down by a heavy bolt.

A FATAL FALL.  
Binghamton, N. Y., June 10.—Rev. George Horton, a retired Presbyterian clergyman, was instantly killed while driving into his yard near Oxford yesterday. The wheel of the wagon caught, throwing him out and breaking his neck.

## CITY COUNCIL MET LAST NIGHT

First Street Petition—Restaurant Licenses—Isolation Hospital

At their regular meeting last night Mr. Crystal addressed the council in regard to the petition for widening First street. He presented the petition from the property owners north of the track, stating as he did so that he had found difficulty in locating the owners in that section, but had secured the signatures of a majority of the owners with no refusal.

The petition was the same in every respect as the one for the section south of the track, with the exception that the price at which the signers on the west side offered to sell the 20 feet of the front of their lots north of the track was placed at 15 a foot.

Commissioner Kinnaird reported that he had interviewed Richard Secord and had asked him at what price they would sell 20 feet off the corner of Jasper and First. Mr. Secord had said that he would not give a price on the property until he had seen his partner, Mr. McDougall, adding that any price which they would consider equitable to them would be considered a hold-up by the city.

Ald. Griesbach asked if the petition was properly signed. Commissioner Kinnaird said that they had no chance to check the petition up.

Ald. Picard stated that he had his mind made up that he would not support any petition that was not fully signed. He said that the petitioners were taking quite a bit on themselves in asking something that the council was not in a position to grant. McDougall and Secord were not in favor of the petition and he knew others who were not.

Ald. Griesbach moved that the petition be referred back to the commissioners to ascertain if it was properly signed.

Ald. Picard seconded the motion and it was carried without dissent. Mr. Crystal asked if the motion was intended to cover the part south of the track. He said that was more than properly signed. Ald. Griesbach said his motion included the two.

Mr. Webster asked the solicitor what the legal interpretation of "properly signed" was. They as petitioners thought they had got at least one petition properly signed.

The mayor answered for the solicitor that this was a matter in which, if they deprived a man of a part of his lot without his consent they were not acting fairly.

Prof. Riddell, as the head of a delegation 15 strong, addressed the council asking it to forbid restaurant liquor licenses on the ground that they were practically licensing saloons.

Ald. Bellamy said that there was no reason why a restaurant license should be issued in the city, and moved that a protest be made to the license commissioners against the granting of the license.

Ald. Smith seconded the motion. Ald. Griesbach asked the city solicitor what the law was in the matter. The solicitor was not prepared to answer off-hand.

Ald. Picard moved that the matter be not disposed of to-night. Ald. Mays seconded, stating that they should have the law on the question before taking action, and he would like to have the city solicitor bring in a report.

## WANT NEW SCHOOL BOOKS

Alberta Teachers Think Better Series Could be Secured

Strathcona, June 12.—The institute again convened in the Grandin street school at 9 a.m. Principal Bryan said a few words on the Alberta College special summer session for teachers and then took up the subject of literature. King's "Song of the River," and Wordsworth's "Solitary Reaper," were previously written on the board and the lecturer frequently illustrated the subject with reference to those selections. He read several selections from the authorized readers, and expressed his opinion that such selections were too difficult and not suitable for the pupils of those grades for which the selections are prescribed. In teaching this subject the teacher should follow the interests and understanding of the pupils and thus make the study for his class interesting. He gave it as his opinion that romance and adventure were occasionally profitable selections to teach and did not recommend the teacher to stick too closely to the selections as given in the textbook. He spoke of Wordsworth, Bryant, Burns, Longfellow and Scott as having written some selections suitable for pupils of Standard V.

The principal stated that the values of literature were (a) Ethical, leading to high ideals and noble aspirations; (b) Intellectual, leading to the great writers; (c) Aesthetic, leading up to the beautiful in thought. The teacher should largely use his own judgment in teaching the subject, should choose the subjects to supplement moral training and not to moralize or teach in a haphazard way which accomplishes next to nothing. He also advised the memorization of beautiful passages and gave as a knowledge of such would be a safeguard to the pupil in after life. At the conclusion of the address Mr. Will asked the principal to insert this address in the "Norman School Voice," a journal devoted to education.

Discussion followed this paper, a change of readers and was participated in by Inspector Ross and Messrs. Lenn and Bartlett. The consensus of opinion seemed to be that "It was time for a change of readers."

Vice Principal McCall followed with an interesting discourse on "Nature Study." He pictured his experience in his early school days when every Friday afternoon he had to study "the commandments," and plants and animals from pictures on the walls, and that the study of nature stood between the poetic and the scientific, and could be made very profitable and interesting by outside observation and research even in winter, and said he once took a class out on the ice of the river in winter and that it was a very profitable trip, as they could observe the different strata on the banks of the river from different elevations. They visited a coulee and noted the different a very interesting and profitable address. Principal Bryan moved that a vote of thanks be tendered the lecturer for their profitable address. Principal Bryan made a suitable reply and the final session of the institute closed. The following teachers were in attendance: Emma B. Danard, Edmon-

## ATHLETIC CLUB A GREAT SUCCESS

Promoters Have Already Sold \$1050 Worth of Stock—Organization Meeting Tomorrow Night

The organization committee appointed at the Saturday night meeting of the baseball fans of the city has completed the preliminaries of the organization, having gotten out the papers of a limited liability athletic company, with very broad powers. While the primary object of the company is to promote baseball, it will have power to promote all kinds of athletics, acquire grounds, build athletic club buildings, acquire franchises, and in general carry on the usual business of an athletic club the same as is done in older and larger cities.

The committee so far has only had time to make a general canvas of the city, and has not gotten down to close figuring of details, but estimates that somewhere near \$3,000 worth of stock will be sold. So far only a part of Jasper avenue has been covered but hardly one man refused to take a share and \$1,600 worth of stock has already been subscribed.

The organization meeting will be held at the Young Liberal Club rooms tomorrow (Thursday) evening. It was the intention to hold it at the Fraser fur office but as there will be a very large gathering it was decided to change the place to the Liberal Club. The legal adviser of the prospective company will be present to direct the proceedings, explain the objects and powers of the club and see to it that all elections are in order and legal. The meeting will not be restricted to stockholders, although of course none but stockholders can vote for officers, but all who take an interest in Athletics are invited to be present.

## PARLIAMENT DISCUSSES WESTERN MATTERS

Ottawa, June 8.—In the House today Sir Wilfrid Laurier announced that he hoped to be able to reduce the police force in the Yukon to 150 men by the end of the fiscal year.

He thought the time had arrived when the force there should be relieved of certain duties now performed by them.

He stated that a portion of the force was engaged in cutting a pack trail to Dawson through Canadian territory with instructions to locate it with a view to converting it into a wagon road in the future if necessary, that if the worst should come to the worst at any time, the Dominion would have an independent means of communication with the gold fields.

The first business in the House today was the first reading of the bill respecting land grants in the Canadian west to members of the militia. The marine and fisheries estimates were taken up in supply and fairly good progress made.

## G.T.P. CONSTRUCTION

Winnipeg, Man., June 11.—So rapidly has G. T. P. construction progressed that many miles will be carrying by the fall. All surplus labor has been taken from the rural districts by high wages paid in construction camps, and if Ontario harvesters do not help the west out the harvest will be utterly impossible. As high as \$3 per day is paid in some railway camps.

## BOARD OF TRADE DELEGATES CATHERED IN CONVENTION

### RIOTING AT TIPLIS

Tiflis, June 11.—A brawl today between Armenians and Mussulmans at Acra, led to a serious rioting and the troops were turned out to suppress the disorder. Eleven Armenians and two Mussulmans were killed and 16 wounded.

### BROKE HIS NECK

Binghamton, June 11.—James Morris of Willawana, aged 65 years, was instantly killed on a bridge at Waverly last night, his horse being frightened. In jumping he threw Mr. Morris from the wagon so that he struck on the bridge abutments some distance below, breaking his neck.

### GRAFT ON SUPPLIES FOR SUFFERERS

Seattle, June 10.—Moritz Thomsen has prevented the consummation of a deal for the sale of 70,000 barrels of flour, contributed to the relief of San Francisco earthquake sufferers to a syndicate of California millers \$2 per barrel cheaper than the Puget Sound mills could lay down flour at San Francisco. The San Francisco relief committee will turn over the flour to the army and permit its distribution by Federal authorities.

But for the interference of Mr. Thomsen the flour would have been turned over to California millers and a profit of \$75,000 would have been made by the syndicate which attempted their purchase. Fully 1,000 barrels of flour contributed by northern cities would have been used to demoralize the markets served by the contributors.

The Puget Sound millers contributed heavily themselves and sold all flour delivered to relief committees on their account at actual cost. Had the California millers been able to put through their scheme this flour would have been used against the charitable northern millers.

## Annual Meeting of Western Business Men Began In The City To-Day

The third annual convention of the Associated Boards of Trade of Western Canada opened this morning in the Oddfellows' Hall, Norwood Block, Edmonton. The president, Mr. R. J. Hutchings, of Calgary, presided. A vote of thanks was unanimously passed for the services of the late Thomas Tweed, and a committee of three, Messrs. Laird, of Regina, Pearce, of Calgary, and Saunders, of Moosejaw, was appointed to send a letter of condolence to Mrs. Tweed.

Next the president named a committee to look into the finances. The committee named was Messrs. Pearce, Short and Laird.

The report of the Committee on Resolutions was laid on the table.

The following officers were elected for the coming year:

President—R. J. Hutchings, Calgary. 1st Vice President—Thos. Copeland, Saskatoon.

2nd Vice President—Ald. McAr, Regina.

Secretary—F. T. Fisher, Edmonton.

### DOUBLE DROWNING

Rochester, N. Y., June 10.—A double drowning accident occurred on the Genesee river this afternoon six miles out of the city. A party of three was in a canoe, composed of Noah Wright aged 33, his son Arthur, aged 18, and Elmer Schomer, aged 19. The elder man stood up in the canoe and it capsized. He was rescued but the other two were drowned.

## You Must Make an Opportunity

If one is not made for you, to see what we are selling in the Lumber line. If you are at all interested in building or alterations of any kind it will pay you to call and see our selected stock of Doors and Sashes. **FOSTER'S FORECAST**

Washington, June 9. - Last bulletin gave forecasts of disturbance to cross continent 10 to 14, warm wave 9 to 12, cool wave 12 to 15. Next disturbance will reach Pacific coast about 15, cross west of Rockies by close of 16, great central valleys 17 to 19, eastern states 20. Warm wave will cross west of Rockies about 18, great central valleys, 20, eastern states 22.

This disturbance will come during a long period of the lowest average temperature of the month, and will close the best part of the corn crop weather of 1906. The coolest part of June and the most general rains of the month will come, in most sections, not far from 151 expect a drought to begin in the principal corn sections not long thereafter accompanied by very much higher temperatures.

This disturbance will be most severe on the Pacific slope not far from 15, and at the same time the preceding disturbance will be causing severe weather in the eastern states and provinces. Severe weather will be more general than usual near 15.

Four months ago I advised farmers to keep a large part of their best corn and stated that the corn crop of 1906 will fall 25 per cent. short of that of 1905. I repeat that statement. A partial failure of the corn crop means higher prices for beef and pork. I expect fall pastures to be cut short by the mid-summer drought in the corn belt and this will make a greater demand for oats and corn. Texas will have too much rain this month, and that will not be good for cotton.

The time seems opportune for me to again warn grain dealers against the infernal machine operated at the principal grain markets by powerful rings of speculators. Whenever the country dealers make a rush to buy or sell, these wealthy speculators take the other side even when conditions are largely against them. Their money is sufficient to overcome ordinary conditions and their harvest of profit comes when the masses of dealers are going one way. My forecast might affect the market if supply and demand controlled the markets. A farmer can hold his corn for better prices, but a common option dealer cannot hold his deals against uncertain manipulations of the big speculators.

But I advise producers to hold their good corn for 40 cents. Chicago markets. Those big speculators may run the price down to five cents a bushel before the full effects of the drought are apparent, but after the damage to the crop is apparent to all the speculators lose control of the market and it is then under control of the producers. I expect fax seed to be damaged by the northwestern drought. I cannot say what the effect will be on fax lint. I really do not know whether the fax lint in the northwest is saved.

**CITY COUNCIL MET LAST NIGHT**

(Continued from Page One)

The city solicitor expressed a doubt as to whether a general resolution would have any effect under the law. Ald. Griesbach said that he was not agreed with Dr. Riddell as to the danger of restaurant licenses to young men. He was a young man himself and he did not feel much afraid. He was going to support the amendment. The vote was put and the amendment carried. Ald. Griesbach, Picard, Calhoun and Mays voting that the question be stood over until the adjourned meeting on Friday evening.

Under the head of communications a letter from Superintendent Jamieson of the C. P. R., was read, with which were enclosed three plans of the proposed high level bridge, asking the council to reply early as to whether or not the city intended to undertake a part of the cost of making the bridge a traffic and vehicular as well as a railway bridge.

On motion the commissioners were instructed to acknowledge receipt of the letter, and to inform the C. P. R. that the council were taking the matter under advisement.

Under the head of reports the building committee recommended that a by-law be prepared to submit to the ratepayers to raise \$8,500 for the purpose of building an isolation hospital either on Mr. Hopkins' plan or on a plan approved by Mr. Hopkins, and that the first floor only be completed at the present time.

In connection with this report Commissioner Kinnaird pointed out that there was already a by-law passed for raising \$12,500, which would bring the total amount up to \$20,000.

Ald. Manson stated that he had looked over the plans and he was of the opinion that the building would cost in the neighborhood of \$16,000, complete. He seconded the motion.

Ald. Griesbach moved in amendment that the plans be referred back with instructions to prepare plans of a building which could be built for the \$12,500 to be raised by the by-law, and that in the meantime the by-law be submitted.

Ald. Smith's motion was withdrawn and the amendment was carried.

**BRITISH BOWLERS COMING**

London, June 11 - S. Findland, captain of the team of English bowlers, sails on the C.P.R. steamer Empress of Ireland on June 29 - A number of ladies will accompany the team to Canada.

**CROP CONDITIONS GOOD**

The Chicago Tribune contains the following "B. W. Snow, board of trade expert, is now making an examination of the Canadian Northwest crop conditions. He has already covered a large part of the territory and claims that conditions were never more hopeful than at present. In the newer parts of the Northwest Territory he estimates there was an increased acreage of 20 per cent and that the increase for the entire Canadian wheat belt was approximately ten per cent. with the present indications pointing to a crop of 120,000,000 to 125,000,000.

One hundred and fifty Canadian Pacific agents agree in declaring that the prospects for a great wheat crop were never better in any previous year than they are this season. The reports from all parts of the country are couched in the same terms, and there is not a single exception to the uniform expression of satisfaction over the outlook.

The rainfall has been ample, and has been spread over the entire wheat-growing area. The cool weather of the latter part of May has been succeeded by the genuine summer weather of June. The result of the very favorable weather conditions is that the grain is making the very rapid growth characteristic of the country at this season of the year, and a height of 18 inches is reported from several localities. The average height of the crop is from 6 to 8 inches, and the prospects are very bright indeed.

Along the main line of the C. P. R. west, rain has been very heavy, and glowing reports of general conditions are sent in.

The only points where more rain is needed apparently is on the northern portion of the Prince Albert branch. At Combe, Lumsden and Craik there has been eighteen hours' rain, but further North at Oiler, Duck Lake, and West Prince Albert the fields are dry and a heavy downpour would be much welcomed.

On the whole, the condition is most satisfactory and the outlook never better.

**POLICE COURT**

Wm. Hayea, who has been cook in the Queen's Cafe, was charged yesterday in the police court with having stolen a letter containing \$15 from Sara Umbach, of Spruce Grove, who was employed in the kitchen of the Cafe. The plaintiff swore that about the 7th May she gave Hayea the letter containing the money to have it registered. Her evidence was supported by Eva Crowe, Assistant Postmaster. Stark swore that there was no record in the mailing book of such a letter. Israel Umbach, father of the plaintiff, swore he had not received such a letter. The plaintiff gave evidence in his own behalf and swore that instead of registering the letter he dropped it in the box for ordinary letters. The case was before Dr. Wadé, J. P., who remanded the prisoner in order to obtain further evidence.

The adjourned trial of J. Kolobiez, the Galician, charged with stabbing E. Mikaluk, another Galician, during a dance at J. Baronowsky's in the evening of June 7 was resumed last night in the police court before Police Magistrate Cowan.

E. Mikaluk, sworn, said he was at the dance at Baronowsky's and when he went to his room he found the prisoner, who attacked him, and wounded him with a knife in the side. His story was supported by W. Mozher, who was at the dance and saw the two men enter the room. The crowd had "chipped in" and secured a bag of beer and were feeling pretty gay. The case was adjourned till 4.30 this afternoon.

## ONTARIO HAS A CYCLONE

Terrible Storms Sweep Southern Part of Province

London, Ont., June 8.—St. Thomas has lost nearly all of the magnificent avenue of trees on Wellington street, and the telegraph and telephone lines are put out of business. The cyclone struck southeasterly across the western peninsula, the villages of Rodney, West Lorne, Dutton, Sheldon, Iona, and Fingall, being in the storm track. Everything movable went up in the air. The wires along the M.C.R. from Ridgeway to St. Thomas were blown across the track in many places. The M.C.R. shops were unroofed, the paint shop was struck by lightning and part of the roof blown off. Trinity church building was damaged. Between Sheldon and St. Thomas a man had his skull crushed on the road by a falling tree. He is in a critical state. Rodney had a cyclone which blew the roofs off the Binder hotel and Patterson house. The walls of G. R. Whitton's store gave way and the chimney fell. Trees a foot thick were snapped off like pipe-stems. Three houses blown down. At Aylmer Hemingway's St. Thomas. At Aylmer Hemingway's \$300 barn built on the arch principle was blown down and entirely destroyed.

The storm in Chatham was terrific, destroying a number of houses and blowing down the steeple of the Park street Methodist church. The wires were all down east of Windsor. The tornado lasted fifteen minutes, starting about 1.35, and at the end of that time maple trees, the growth of years, were decimated in all parts of the city. The storm came up the valley of the river, doing little damage along the banks, and expending itself in the city. Rain hail and wind were mingled in such fierceness it was impossible to see across the street. The Bowles axle works had the roof riddled with holes and gaps. The trees in Tecumseh park, Victoria park, William and other streets were torn to pieces. One of the peaks was knocked off the Central school, the bricks penetrating the roof. Skylights were blown off the college, and window breaking was general. The smock stacks of the Chatham Manufacturing Co., Chapin wheel works, Draper's saw mill and the Chatham Motor Car Co. were also levelled. Barnes' livery stable was destroyed. The weigh scale near the Tecumseh house were ripped up, and the steel flag pole on Harrison hall was bent over. Telephones and electric light poles were lifted and with their wires hurled to the ground. Fleming & Tilson's ice house was raised some inches off its foundation and the roof of the opera house suffered seriously. Fortunately no lives were lost. The damages are estimated at many thousands of dollars.

Sarnia received the full brunt of the storm, and while happily no loss of life occurred, suffered great material damage. W. F. Lawrence & Sons' new lumber mill and 150 square feet of roofing blown off and destroyed with the shuffling and belts. Two trees at Christiana and Johnston streets were destroyed, one being lifted out by the roots and hurled against Miss Watson's house, smashing the windows, cornices and roof. A house on Davis street was lifted off its foundation and toppled over. Richard Lynch's house on Wellington street was badly smashed.

ed, and Louis Star, who was within had his arm cut by flying glass. Dr. James closed the severe wound with ten stitches. John Ross' barn was demolished and chimneys on Russell and Queens streets were blown off. Lightning along the wires set fire to Lucas' bakehouse, but the flames were extinguished by the brigade. A number of fishermen on Lake Huron had a fierce tussle with the gale and reached shore with great difficulty. Maxwell church on the sixth line of Plymouth was struck by lightning which tore a hole in the roof. Wm. Battles' also on the same line was blown down and his barn injured. Alex. Bowles was moving a frame house from Sarnia to the country by the London road. The storm lifted it into the ditch near the Perth bridge. The St. City of Toledo was caught in the storm near Court-right and tied up at St. Clair where she was several times wrenched from her fastenings. The electric services were utterly demolished.

St. Thomas, Ont., June 8.—A hurricane of cyclone proportions struck St. Thomas this afternoon. The force of the wind was terrific. The roofs of many barns and houses were carried away. Windows in many of the public schools were blown out and churches damaged, and the streets are blocked with fallen trees. Eight hundred feet of the roof of the Michigan Central shops were blown off. Many persons narrowly escaped injury. No fatalities are yet reported. The wires being down, news is difficult to obtain. At Beamsville the barn of H. Cousins was struck by lightning and burned with several hundred bushels of what, hay and farm implements. The loss is \$15,000. Two stores were struck but the damage was light.

Hamilton, Ont., June 8.—About 3.30 today a violent windstorm accompanied by heavy rain and lightning struck this city and lasted for over half an hour. Trees were uprooted, roofs and chimneys blown down, plate glass windows broken. At the international Harvester works the roof was taken off one of the largest buildings. At the race track the flag staff blew down and struck the roof of the grand stand, causing a panic. Bastien's boathouse was demolished. No persons are reported injured though many had narrow escapes.

Niagara Falls, Ont., June 8.—A terrific wind and rain storm struck this city from the southwest yesterday afternoon. The wind and rain drifted in sheets and shook things up lively on every street in the city. The greatest damage it did was blowing over two large brick chimneys and crushing in two wings of the new general hospital under construction. Some ten workmen just got away from the building as the chimney toppled over. The brick work contractor, J. Blair, who was on the top of the chimney was blown out and brick and mortar fell all around him. His only injury seems to be badly burnt eyes with lime from the falling brick. The loss to him and Contractor Robertson in woodwork will reach several thousand dollars.

Buffalo, N.Y., June 8.—A terrific wind and rain storm swept over the country between Hamilton and Niagara Falls, Ont., late this afternoon. All direct communication between this city and Hamilton and Toronto was cut off for several hours. It was reported that the wind storm reached to proportions of a cyclone around the race track at Hamilton. The horses were parading past the stand for the second time when the storm came up. They were sent back to the paddock and everybody sought shelter. The skies were overcast with heavy black clouds and the wind tore over the course at the rate of 75 to 80 miles

an hour. Many of the crowd ran to the infield where they laid flat upon the ground, to avoid being struck by flying debris. The rain fell in torrents. It was all over in twenty minutes and racing was resumed. Wire communication is crippled, but so far as known no lives were lost.

Detroit, Mich., June 8.—Reports to the News from Chatham, Ont., say that a terrific windstorm struck that city this afternoon destroying a number of houses, blowing down the steeple of the Methodist church and injuring several people. The storm is said to have swept through that portion of Ontario with lightning rapidity. The wires are all down west of Windsor and it is impossible this evening to get report from the storm swept section.

A report has just reached police headquarters that during the height of the storm early this evening, a young boy was blown off the Belle Isle bridge and drowned, and that eight persons were drowned on their way across the river to a shore resort in Canada. Much damage has been caused to wires and telephones. No one has yet been reported as seriously injured in the city.

### PREMIER SEDDON DEAD

Sydney, June 10.—Premier Seddon of New Zealand, dropped dead here tonight.

Rt. Hon. Richard John Seddon, P.O., M.H.R., LL.D., premier, colonial treasurer, minister of labor, minister of defence, minister of education, and minister of immigration in New Zealand; born Eccleston, Lancashire, 1845, emigrated to Melbourne in 1884; son of late Thomas Seddon and Jane Linday; married 1869 Louisa Jane, daughter of Captain John Spotswood; educated Eccleston Hill School, Lancashire. Removed to New Zealand, and entered New Zealand parliament 1879; is a mechanical engineer; associate of American Institute of Mining Engineers; hon. life member of the Geographical Society of California; hon. LL.D. of Cambridge and Edinburgh Universities; attended conference of Colonial Premiers in London, 1897, and also in 1902. Address Wellington, New Zealand. Club: National Liberal.

## A PIONEER HONORED

The monuments which the scientists and railway men of Canada and the United States decide some time ago to erect to the memory of Sir James Hector and his son, of New Zealand, have now been put in place. The former is a monument of the great services which this gentleman rendered as scientist of the Palliser Expedition, which discovered the Kicking Horse Pass. The Kicking Horse river was named after an incident of the trip when Sir James was laid out by a kick from his horse, and given up for dead. His Indian guides were actually preparing the grave for his interment when he came round just in time to avert being buried alive. Mr. Hector, one of the highest peaks of the Rockies, is also named after the

veteran explorer. Until recent years Sir James was in charge of the Geological Survey of New Zealand, and represented that colony at several international exhibitions, in connection with which he was awarded high honors. The monument to his achievements has just been erected at Logan under the shadow of Mount Hector.

When Sir James visited Canada three years ago it was to see the changes that progress had developed since the days when he crossed the mountains. But his trip was accompanied by a sad event, the death of his son Douglas, which took place at Revelstoke Hospital. The remains were interred in the Revelstoke cemetery, and the friends of science felt the occasion was one when they should tender Sir James some token, not only of their appreciation of the work he had done, but of their sympathy with him in his sad bereavement. So while a monument in his honor was being erected to mark the railway route across the labor of his earlier years it was felt that the token of human sympathy which bereavement brings to all the human family should be included and that it should take the form of a monument to the memory of his son. So, hewn out of granite, chiseled and polished and inscribed at the G. C. P. R. quarries, was shaped a monument which shall endure as long as the mountains. The laying of the monument has just been completed. It is a beautiful yet massive piece of work. The stone selected is the big-grained granite of the Cascade Range, polished and hewn to the size and shape of the grave, on which it is laid horizontally, set on a basement of the finer grained granite, of which the C. P. R. corner stones are cut.

On the east end of the monument is "Douglas Hector, of Wellington, N.Z. Died August 15, 1904, aged 26 years."

The credit of the successful carrying out of the project of erecting these monuments is due to A. O. Wheeler, secretary of the committee, and Superintendent Kilpatrick, of Revelstoke, the treasurer.

## -TRAMPED BACK TO ONTARIO

The Progress, a new paper at Bladworth, Sask., relates a remarkable fact of an Ontario dog as follows:

We have often heard of the remarkable sagacity and intelligence shown by dogs of various breeds, but we do not remember of ever hearing of a dog which has ever accomplished such a wonderful feat as a collie dog owned by Wm. Davey, who recently arrived here with a car of settlers' effects from Meaford, Ont. When the car of effects was rolling along over the C. P. R. some six hours' run from Winnipeg, the dog jumped out of the car, rolled over a few times, faster than the wheels of the cars were turning, shook the dust from his shaggy back, and started down the track towards the home from which he had so recently been taken and which he loved so well. Nothing was heard of the venturesome canine until last week, when Mr. Davey received a letter from Meaford stating that the dog had arrived home in a state of exhaustion. The letter did not state the day of the month on which the dog got back, but Mr. Davey has written to find out. From Winnipeg to Meaford the distance is 1,100 miles, and when it is taken into consideration that the dog in order to reach home had to travel over a line of railway which crosses several rivers and innumerable creeks, runs through tunnels and through a mountainous country, the feat seems so remarkable that it taxes one's credulity to believe it.

## CANADA'S REVENUE

Ottawa, June 8.—The revenue of the Dominion of Canada during the eleven months of the current year, up to June 1 amounted to \$71,102,212, which is an increase of \$7,867,884 over the corresponding period of last year. The ordinary expenditure was \$50,206,725, an increase of \$2,349,193, and the expenditure on capital account \$11,731,133, an increase of \$1,811,299. The revenue shows what during the eleven months the customs returns increased 24,859,000 over 1905; the excise collections \$1,385,000; the postoffice receipts \$5,386,000, and the receipts from public works and railways 367,000. The bounty payments of \$1,936,286 represent an increase of \$20,845. The railway subsidy payments of \$1,617,574 were \$423,278 larger than for the corresponding period of the year before.

TENDERS FOR A LICENSE TO CUT  
TIMBER ON DOMINION LANDS IN  
THE PROVINCE OF ALBERTA.

SEALED TENDERS addressed to the Minister and Mines, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 1269," will be received at this Department until noon on Wednesday, the 13th day of July, 1906, for a license to cut timber on Berth No. 1269 comprising Sections 24, 25, 26 and 35, in Township 54, and Sections 2, 4, 13, 15, 16 and 21, Township 65, all in Range 14, west of the 4th Meridian, containing an area of 10 square miles, more or less.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at Edmonton, Alberta.

Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

No tender by telegraph will be entertained.  
FERLEY G. KEYS,  
Secretary,  
Department of the Interior,  
Ottawa, May 25, 1906.  
By 136.

## Talks on Orange Meat

(THE PURE FOOD) No. 1  
Canadian from field to table.

ORANGE MEAT is made from the best wheat grown in Canada.

That's the reason why it is the best cereal in the world, from the Western wheat fields, it is brought by rail and lake right to our elevators at Kingston. Then our experts cook, malt and toast it changing wheat starch to wheat sugars. From the time it enters our elevators as wheat—until it comes on your table as ORANGE MEAT—it is never touched by human hands. The wheat is entirely handled by machinery. It is a Canadian cereal—perfected by Canadians—to build up the health and delight the appetite of Canadians.

ORANGE MEAT contains all the body, brain and vigor building elements of wheat. Analysis shows that ORANGE MEAT contains more wheat sugar than any other cereal.

It's not merely "something good to eat." It is a perfect FOOD. It contains the whole wheat—the outer shell omitted from flour and the wheat germ which supplies phosphorus to the nerves and brain. ORANGE MEAT weighs 35 more than any other package.

Your grocer has ORANGE MEAT in 15c. and 25c. packages. 15c. size contains coupons good for new premiums. 25c. size contains 2 1/2 times the 15c. quantity. Write "Orange Meat, Kingston," for new premium catalogue.

EDMONTON BEER

PURE AS SNOW WATER

EDMONTON AND STRATHCONA

### LOCAL.

In order to reach the News or Editorial rooms of the Bulletin, ring up Phone No. 450

—The Gun Club will have a shoot this evening.

—The Royal Templars of Temperance meet in Sandison's Hall on the second and fourth Thursdays in the month.

—All the lacrosse players of the city are requested to turn out for a rustling practice on the Capital lacrosse grounds this evening at 6.30.

—Jackson, Bros., Jewellers, have donated a silver medal for the best general purpose team and one silver medal for the best bull of any breed, shown at the provincial fair.

—Mr. H. S. Gouldhawke, an old and well known resident of Mistawasis, Sask., was reported at Prince Albert to have met with a fatal accident a few days ago. It appears he was driving round his ranch, situated about sixty miles northwest from Prince Albert, when he lost hold of one line, and in reaching over the dashboard to recover it fell out and broke his neck.

—News has been received of the death of D. W. Davis, ex-M. P., at Dawson City, where he had been collector of customs since 1896. Mr. Davis for many years managed the I. G. Baker store at Macleod in the early days. He was a "down easter." When Alberta was created a constituency in 1886, D. W. Davis was elected to the House of Commons, defeating Mr. (afterwards Senator) Hardisty, of Edmonton. In the next general election he defeated Jas. Reilly, of Calgary.

—Calgary Herald: Joseph D'Armour, the mail clerk arrested in St. Boniface last Monday afternoon and who must face a charge of stealing from the mails \$2,000 while employed in the government service on the run from Strathcona to Calgary, was brought back yesterday by Sergeant Wilson, of the R. N. W. M. P. D'Armour still sticks to his story that some fellow mail clerk must have placed the \$250 found in the toe of a boot in his trunk.

### MAIN ON THE STAND.

The isolation hospital investigation was continued this morning again. Dr. Braithwaite was recalled by Mr. Beck, but brought out no new facts. Sydney Main was called. He said he was assistant health officer and his duties so far as the isolation hospital is concerned are to see that it had supplies, and, under Dr. Braithwaite, to engage nurses—practically to see to the running of the hospital. A stock list of the furniture, medicines and property of the hospital, dated April 25 was produced, which Main swore was a correct list. In answer to Mr. Beck he went over several of the items, the intention being to prove that the hospital was adequately supplied.

Main said that his custom was to find out from the different wards every morning what supplies were necessary, and if any doctor or nurse needed anything immediately through the day or night it was ordered by telephone. He said that he had never been asked for any supply that he did not provide. There was a delay of three days in getting water barrels, but that was the fault of the merchant, not of himself. Regarding the milk supply, he ascertained every morning how much milk was required, and went to the dairy for it. He had found some difficulty in getting all the milk that was needed as the dairy people told him that they did not have enough milk to supply their customers who had purchased tickets. Dr. Braithwaite visited the dairy and told them that they had to furnish a sufficient supply. On one occasion the hospital had been out of bread for three hours, but they had flour there and crackers and could have made buns. Disinfected patients sometimes went to the dairy for milk, but that was not his order.

Main said that he had not received any notice of Asher's arrival or Dr. McGibbon's intention to send him to the hospital; had he known he was not certain that he would have admitted Asher, as there were already two patients in the tent.

Merkley was engaged to nurse Carr at \$2 a day. When three patients came he and Merkley talked the matter over and it was decided that Merkley was to get \$3 a day. When Sullivan came on and another attendant was employed, Dr. Braithwaite told Main to reduce Merkley to \$2 a day. Merkley said it did not matter much to him, as he had been doing too much work and needed a rest. Main agreed with Merkley in this respect.

Main visited the scarlet fever tent three times, once because Sullivan was drunk, once again because the patient's said they would not have Sullivan attend them and the third time because they had seen Sullivan take the alcohol. Outside of this he was in the tent on two other occasions. He examined the tent yesterday and found that there were several small holes near the stovepipe evidently caused by cinders. There was a large tear back of the stove, but it was in a place where it would not cause any inconvenience. The canvas appeared to be in good condition. During fine weather the tent was kept clean and neat. When it rained it was modestly neat he door. He never noticed any drafts through the tent.

As far as he knew none of the patients suffered as a result of Dr. Sul-

livan's misdeeds. He heard that Grimble suffered a relapse, but he did not know that was the case. The doctor never said anything about it.

Main turned up the hospital diary and read the entry with regard to Sullivan's drunk, which corroborated the evidence already given. Another entry showed that one of the patients had complained that Sullivan drank the alcohol.

The investigation will go on this afternoon when Mr. Biggar will cross-examine Main.

### BASEBALL TONIGHT.

The Edmonton-Strathcona ball game comes off at the Diamond Park, Second street, at 7 o'clock this evening, and a fast game is guaranteed. It is reported that Strathcona have a few surprises to spring this evening and the audience is going to get the best two-bits worth of baseball that has been seen in the city this summer.

### FT. SASKATCHEWAN ITEMS

Fort Saskatchewan, June 12th. H. E. Todd, late manager of the Merchants bank, here, left last evening on the 4.40 train for Edmonton. Mr. Todd was well liked in this locality both in the town and in the country and will be missed by all his friends. Mr. Baffles will take the position vacated by Mr. Todd.

The intermediate base ball club of this place has sent a challenge to the intermediate ball boys of Edmonton for a friendly game of ball on June 25th at the Fort. The Edmonton intermediates have accepted.

O. Higman's machinery for his new electric light works has arrived and was partly installed today. Mr. Higman has had the foundation of his building, finished and men are now working on the frame work and hope to have it completed during this week.

Miss Sibley who has been staying with her sister, Mrs. Dr. Aylen for some time past went to Edmonton today.

C. Carmichael came down from Edmonton last night.

### DOMINION CONCERT CO.

The Dominion Concert Company appeared in the Thistle Theatre last night. The artists were all well received and encores were given in almost every selection of Miss Badgley is a talented pianist and her rendering of "Queen of Rue Witches Cavern" was most pleasing. Miss Mullins is an accomplished pianist and her rendering of "Hexantant" was well received. Miss White has a clear soprano voice and sang some very beautiful solos. Mr. Leonard is a very clever violinist. On the whole the company is one of the best that has visited Edmonton and they should be greeted by a much larger audience at this evening's performance. The company appear again tonight.

There will be a complete change of program tonight.

### INSPECTING BINDER TWINE

Mr. Joseph L. Haycock, inspector of binder twine, formerly patron leader in the Ontario Legislature, is in the city. Mr. Haycock says that the manufacturers of binder twine are now recognizing the necessity of conforming to the law. Last year he found twine offered for sale in the west labelled to run 600 feet to the lb., and it only measured 414 feet. This year it was running as labelled, and so far he had not found one short ball.

### ELOCUTION CONTEST

An interesting program was given last night in the Assembly Hall of Alberta College. It was the occasion of the first annual contest for the scholarships in elocution awarded by the local graduates of Mount Allison University. Two scholarships are given of \$15 and \$10 each. There were three contestants, Miss Dorothy Huestis, Miss Lillian Watts and Mr. Oscar Helu. The first place was won by Miss Huestis and second by Miss Watts. The proceedings were diversified by piano solos by Miss Stretch, and Mr. Hook, and songs by Misses Anderson and Potter.

The judges were Mr. E. C. Taylor, M.A., Rev. A. S. Tuttle and Rev. Howard, of Bowden. Prof. Race presided. The award for these scholarships is made upon the basis of term work, which counts 60 per cent., and 40 per cent. in the special contest.

Following was the program:

Piano solo—Miss Stretch.

Reading—Miss Watts.

Song—Miss Anderson.

Reading—Mr. Helu.

Song—Miss Potter.

Reading—Miss Huestis.

Piano solo—Mr. Hook.

God Save the King.
